

Jonathan Harris 30062368

Followed: <https://www.youtube.com/watch?v=ZwFA3YMfkoc&t=5917s>, instead of the tutorial linked under the assignment description.

How to run:

- Install node.js
- In the client folder:
 - Type: “npm install” to download all dependencies on the client side
 - Type: “npm start” to begin
- In the server folder:
 - Type: “npm install” to download all dependencies for the server side
 - Type: “npm start” to begin

NOTE THINGS NOT COMPLETED:

- Change Nickname
- Nick color
- Cookies
